EDUCATION

BSc (Hons) Interactive Media, University of York

Sept 2024 – Present

- 1st Year: 2:1 | 2nd Year: 2:1
- Key Modules: User Experience Design, Interactive Media Group Project, Web Application Design & Development, Interactive Media & Society.
- Future Voices Scholarship, University of York

EXPERIENCE

Student Technician, Student Resources Audit Project

Jun 2026 – Jul 2026

- Audited 10+ modules across all years, identifying missing software and hardware requirements to improve the consistency and accessibility of student resources.
- Designed wireframes and layout of a central resource directory whilst matching university's design system, then built the site in HTML and CSS, iterating based on staff reviews to deliver an accessible user centered solution
- Applied WCAG accessibility guidelines to the directory website, creating a more accessible experience.

Student Ambassador, University of York

Oct 2024 – Present

- Delivered engaging campus tours to 50+ prospective students and families.
- Supported marketing initiatives and communicated effectively with prospective students, families and staff, providing accurate course information and enhancing the visitor experience.

Content Creator Intern, Black Access Programme

Nov 2025 – Apr 2026

- Created 5+ targeted social media posts for TikTok and Instagram in collaboration with student teams and staff, reaching 100+ viewers and generating 25+ engagements.
- Developed a content strategy aligned with programme goals, coordinating with staff to maintain consistent messaging across platforms

Design Deputy Lead, Interactive Media Showcase

Nov 2024 – Jun 2025

- Collaborated with a team of 10+ students across design, marketing, and technical roles.
- Designed the website's information architecture and content, attracting 60+ visitors and 200+ page views during the Interactive Media Showcase.

PROJECTS

Deep Within, Meditation & Self-Care Prototype (65%) | Individual Project

- Planned and ran usability testing sessions to validate design decisions, then used findings to redesign core user flows, redesigning the mobile concept to improve user accessibility.
- Applied user centered design principles to create a more engaging, calming user experience aligned with the app's wellness focus.
- Conducted think-aloud usability testing with 7 participants and analysed findings using affinity mapping to identify recurring pain points, directly informing three rounds of iteration.

Who Poisoned Pippy, Web Design & Development (78%) | Agile Team Project

- Worked within an agile team to design and develop an interactive web-based mystery game through sprint reviews.
- Ran the project report and documented the development lifecycle, contributing to a 78% First-Class grade.
- Built the project's design system in Figma and contributed to a responsive, WCAG compliant user interface using Bootstrap.

EXTRACURRICULAR ACTIVITIES

Student Volunteer, All Should Eat Society

- Collaborated with volunteers to reduce food waste and support the local community
- Supported the weekly "Crate to Plate" initiative helping prepare and distribute meals using surplus food.

Digital Media Assistance Volunteer, LND research trust

- Created engaging video content with branded intro and outro screens for the Trust's online resources.
- Selected and organised key information to improve content clarity and viewer engagement.
