EDUCATION

BSc (Hons) Interactive Media, University of York

Sept 2024 - July 2027

Expected Classification 2:1 (Upper Second-Class Honour)

- Key Modules: User Experience Design, Interactive Media Group Project, Web Application Design & Development, Interactive Media & Society.
- Future Voices Scholarship – University of York

EXPERIENCE

Student Technician – Student Resources Audit Project

Jun 2026 – Present

- Collaborated with academic staff and a fellow student technician to create a centralized resource directory for students.
- Audited module resources across the Interactive Media & Creative Technologies Department to improve resource accessibility and consistency.
- Collected, verified and documented software, hardware and learning resources using structured spreadsheets and data tracking tools.

Student Ambassador – University of York

Oct 2024 – Present

- Delivered engaging campus tours to 50+ prospective students and families
- Supported open day's events, ensuring clear communication and a welcoming experience

Content Creator Intern, Black Access Programme

Nov 2025 – Apr 2026

- Planned and delivered targeted social media content for TikTok and Instagram in collaboration with student teams and staff.
- Represented the student voice on the Black Access Advisory Board, providing insight into race, ethnicity, and access to higher education.

Design Deputy Lead, Interactive Media Showcase

Nov 2024 – Jun 2025

- Defined the showcase theme and designed branded assets
- Collaborated with a team of 10+ students across design, marketing and technical roles.
- Contributed to a well-attended event that welcomes 60+ students, staff and industry guests

PROJECTS

Deep Within – Meditation & Self-Care Prototype (65%)

- Planned and ran usability testing sessions, using findings to improve user flows
- Applied user-centered design principles to create a more engaging, calming user experience
- Conducted think-aloud usability testing with 7 participants and analyzed findings using affinity mapping.

Who Poisoned Pippy – Web Design & Development (78%)

- Worked within an agile team to design and develop an interactive web-based mystery game through sprint reviews.
- Authored the project report and documented the development lifecycle, contributing to a 78% First-Class grade.
- Created the project's design system and responsive interface in Figma.
